

California OES Weather Threat Briefing

Thursday, August 27, 2020
9:00 AM PDT

- **Day 1 (Thursday):** A moderate to high risk of heat related health impacts continues today across interior portions of Southern Region.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

08/27/20 - 09/02/20

Thursday-Friday

- Very little to no thunderstorm activity is expected Thursday and Friday
- Moderate to high risk of heat related health impacts continues across interior portions of Southern Region
 - Low to moderate heat impacts are also expected across Inland Region, especially on Friday
- Reduced air quality will still remain an issue due to the extensive smoke being produced by the numerous wildfires across the state
- Gusty evening winds are expected across portions of Southern Region Thursday evening, especially in Santa Barbara County where wind gusts of up to 45 mph are expected

Saturday-Wednesday

- Cooling temperatures will lead to decreasing heat concerns through the weekend, followed by warming again Tuesday-Wednesday
- Elevated fire weather concerns will likely persist statewide due to warm temperatures, low humidity, and occasionally gusty conditions
- The chance of thunderstorms could increase across interior portions of Southern Region Sunday into the beginning of next week
